Dear Mr. Hall:

This Division has made a preliminary review of the revised Discharge Prevention Containment and Countermeasure DPCC and Discharge Cleanup Removal Plan (DCR) Plans submitted for your North Bergen facility. Pursuant to N.J.A.C. 7:1E-1 et seq. "Rules Concerning Discharge of Petroleum and Other Hazardous Substances," the following additional information is required in order to complete and in-depth review of the facility:

- (1) 7:1E - 4.7 (7) - The DPCC Plan shall include an estimate of the time required to remove the largest probable spill from any secondary containment system.
- (2) 7:1E - 4.4a (2) and (3) - These sections have not been adequately addressed. Exemptions under (3) apply only to areas directly beneath existing tanks, not to secondary containment areas. Earthen bases in your dikes may be sufficiently impermeable (see 7:1E - 4.2(a)). However, you will need to supply us with product percolation rates as well as the estimated time to remove a spill of the largest tank from a secondary containment area and the additional time required to remove all contaminated soil.
- (3) 7:1E - 4.14a (5) and b (5) - We will need to know the type of integrity tests e.g. hydrostatic, shell thickness, etc. performed on your tanks. Also the Division would require a schedule for testing.

Mr. B. R. Hall

In accordance with N.J.A.C. 7:1E-4.4(b) the additional information shall be submitted within thirty (30) days of receipt of this letter. Failure to submit the requested information may result in denial of the plan without prejudice to resubmission.

If you should have any further questions regarding this matter or require assistance, please contact me at (609) 292-5560.

Very truly yours,

Regarding Superfund Section 103(c) Notification

Dear Sir:

In accordance with the requirements of Section 103(c) of the Comprehensive Environment Response, Compensation, and Liability Act of 1980 PL 96-510 (commonly known as "Superfund") we are enclosing EPA form #8900-1, Notification of Hazardous Waste Site.

While we believe that the enclosed report is consistent with the primary purpose of the notification procedure - to locate hazardous waste sites - it should be pointed out that this notification is based upon information obtained from sources such as personal knowledge, belief, recollection, and reasonably available records. To that extent the notification represents our good faith effort at obtaining both accurate and truthful answers to the questions asked.

You might also note that some of the answers provided are approximations. Here again, these approximations represent our best estimates in view of the available information and the time constraints imposed upon us in gathering this information.

If you should have any questions regarding the information contained in this notification, please contact me at the telephone number listed below.

Very truly yours,

W.B. Hiestey
